

## Hook

Children will explore an Antarctic scene from the past, looking for evidence and clues to help them unravel a famous event from history.

## Spiritual and moral

Children will explore themes of perseverance and self sacrifice.

We will look at climate change and mans' impact on this environment.

## Learning beyond our Classroom

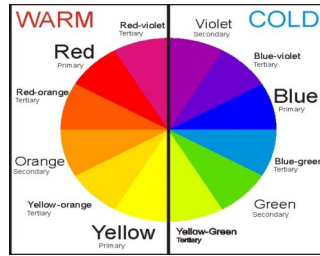

We will invite a real life Antarctic explorer to visit and speak to the children about their experiences.

## Focussed Learning Outcomes

We will create webpages about creatures from the polar regions. We will design these for a younger audience and share them with children from Key Stage 1.

### Art

We will look at colour and the way it can be used to create cold and warmth in art. We will create our own artwork inspired by the landscape of Antarctica.

### History

Travelling back in time we will learn about the 1911 race to the South Pole between Roald Amundsen and Robert Scott. We will relive their journey and explore the challenges they faced as they endeavoured to reach their goal.

### English

Inspired by pioneering explorers of the past, we will write stories of peril and adventure and diary entrees. We will read and write poetry in different forms, imagery and emotion.

### P.E

We will develop our teamwork skills through the game of netball. We will practise our gymnastic skills.

### Computing

We will become HTML editors and create a webpage.

### R.E.

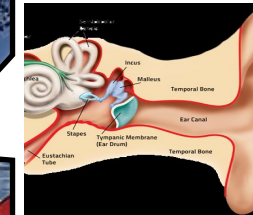

We will learn about the teachings of Jesus through parables and the Lord's Prayer and think about the example he set others through his words and teaching.

### French

We will learn the names of the days of the week and months of the year. We will also explore how Christmas is celebrated in France.

### Scientists

We will explore sources of sound and how we hear. We will look at how both humans and animals

communicate in the Antarctic environment.

### Music

We will listen to and sing songs from Christmas & winter related films. We will then look at compositions by musicians who have been inspired by winter and create our own.

### Geography

We will learn about the key features of maps and use the appropriate terminology.

We will find out about the weather conditions of this region and about the creatures that live there.
