

Making memories to build memory through:

We will be inspired by Guglielmo Marconi and take a visit to Chelmsford Museum to learn about radio waves and his impact on science.

We will also be inspired by many other influential figures of both past and present when reading the 'Little People, Big Dreams' books.

Art

We will produce cubism pieces in the style of Picasso.

Geography

We will be exploring maps and familiarize ourselves with compasses and directions on a map.

Computing

We will be exploring Computing systems and how IT is used everyday all around us.

English

We will be inspired by various authors from both past and present to enable us to write in a variety of styles including fiction, non fiction and persuasive text.

DREAM BIG!

Science

We will be exploring Isaac Newton and his theory of gravity by planning, performing and concluding an experiment.

P.S.H.E.

We will discuss the value of money and the importance of saving and being sensible with it.

Music

We will listen to music by local musicians and use local stories from history as a composition stimulus.

R.E.

We will be answering the question "Why does Easter matter to Christians?"

P.E.

We will be developing our skills in Multi Sports and Gymnastics.
