

Making memories to build memory through:

We will invite a guest speaker to talk about Antarctica.
We will look at the journey of Preet Chandi.

Art

We will look at colour and the way it can be used to create cold and warmth in art. We will create our own artwork inspired by the book 'Shackleton's Journey' as well as look at the artist Nerys Levy's work.

English

Inspired by pioneering explorers of the past, we will write recounts about their adventures and diary entries too. We will read and write poetry in different forms, using imagery and emotion.

Computing

We will explore and create media becoming desktop publishers

History

Travelling back in time, we will learn about Shackleton's journey to the Antarctic. We will relive this and explore the challenges they faced as they and endeavoured to reach their goal.

RE

What is the Trinity and why is it important for Christians?

Geography

We will learn about the key features of maps and use the appropriate terminology. We will find out about the weather in this region, the creatures that live there and the problems facing Antarctica today.

Science

We will explore sources of sound and how we hear. We will look at how both humans and animals communicate in the Antarctic environment. We will investigate pitch and volume.

PSHE

We will be talking about when it is right to keep something secret or confidential or when to break a confidence.

Music

We will sing Christmas songs and use ICT to record and manipulate our voices

PE

We will develop our teamwork skills through a variety of Multisports.

Antarctic Adventure
