

Making memories to build memory through:

Year 5/6 children will have a Greek feast to sample Greek cuisine.

Art

We will create clay busts of ourselves and display them on top of Greek-style columns.

History

We will study Ancient Greece and the legacy that it left the world. We will investigate the people, the cultures of Ancient Greece and key events of that time period whilst placing them in the timeline of our world's history compared to present day.

English

We will read and investigate the Myths and Legends of Ancient Greece, the characters in these stories, as well as the mythological beasts described in them before writing our own. In addition, we will write recounts of the Trojan war.

PSHE

We will be learning about families and friendships, respect, conflict resolution and stereotypes.

R.E.

We will be learning about how God can bring freedom and justice.

Faster, Higher, Stronger

Science

We will study animals, including humans, focussing on the human circulatory system, impact of diet and exercise on lifestyles and the importance of nutrients and water.

Computing

We will study and create vector drawings using online software.

Music

We will learn about anthems from different Olympic countries and develop performance skills.

French

We will be learning vocabulary linked to transport, describing a journey in French, conducting a travel survey and learning to use opinion verbs and relevant adjectives.

P.E.

We will take part in football and we will develop our fundamental movement skills.
