

Making memories to build memory through:

We will visit Warner Brothers Studios to take the Making of Harry Potter Tour.

English

We will use the characters and settings of the Harry Potter books as inspiration for writing characterisations; scene descriptions; instructions for mixing spells and potions; and newspaper reports.

DT

We will design and make packaging for our own home-made wands using such skills as: annotated sketches, diagrams and prototypes.

Computing

We will be Web Developers by designing, writing and creating web pages for the Hogwarts school website.

R.E.

We will learn about what difference the resurrection makes to Christians.

French

We will learning how to conjugate regular -er verbs in the present tense and introducing the high frequency irregular verbs 'avoir' and 'être', then writing sentences using a range of verbs to describe leisure activities etc.

Geography

We will use JK Rowling's Harry Potter to inspire the children to analyse, design and create their own maps of ancient wizardry.

Science

We will be looking at the properties and changes of materials; including dissolving, separating mixtures and chemical changes.

PSHE

We will consider our feelings towards spending and saving, responsibility of keeping money safe, gambling and associated risks.

Music

We will compose using vocal ostinato. We will also learn to play Hedwig's theme on the chime bars after listening to John Williams' film score.

P.E. We will practise and improve our outdoor adventurous skills. We will be learning to play Quidditch for Muggles.

The Magic Of Harry Potter
