

AM I A BUILDER OR A BULLDOZER.

I am a builder because I am helpful and kind.

I am not a bulldozer because I don't be mean and leave people out.

If someone needs help I help them and if they need something I do it for them.

I don't leave them alone to do it themselves struggling.

I don't give them the answers but I help them to find out the answers.

If someone is sad or lonely I play with them and ask what's wrong.

I don't walk past and carry on with what I'm doing.

I support people and don't say mean things.
