

The Big Question

Am I a builder or a bulldozer?

To be a bulldozer means that you would be mean to someone and demolish their happiness and a builder means to build up someone's happiness and be kind to them.

I can be both a bulldozer and a builder. Sometimes I can be a bulldozer when I am stressed but otherwise I am a builder by helping people and if they don't have anyone to play with I'll let them play with me.

I'm going to try to be a builder all the time!
