

Comparing numbers

Can you order the two digit numbers?

Example

	<table border="1" style="margin: auto;"><tr><th style="background-color: #ff00ff;">tens</th><th style="background-color: #ffff00;">ones</th></tr><tr><td style="text-align: center;">2</td><td style="text-align: center;">6</td></tr></table>	tens	ones	2	6	$36 = \boxed{3} \text{ tens and } \boxed{6} \text{ ones}$
tens	ones					
2	6					

26	34	36
smallest → greatest		

	<table border="1" style="margin: auto;"><tr><th style="background-color: #ff00ff;">tens</th><th style="background-color: #ffff00;">ones</th></tr><tr><td style="text-align: center;">3</td><td style="text-align: center;">1</td></tr></table>	tens	ones	3	1	$29 = \boxed{2} \text{ tens and } \boxed{9} \text{ ones}$
tens	ones					
3	1					

smallest → greatest		

	<table border="1" style="margin: auto;"> <tr> <td style="background-color: #ff00ff; padding: 5px;">tens</td> <td style="background-color: #ffff00; padding: 5px;">ones</td> </tr> <tr> <td style="text-align: center; padding: 5px;">2</td> <td style="text-align: center; padding: 5px;">7</td> </tr> </table>	tens	ones	2	7	$32 = \boxed{3} \text{ tens and } \boxed{2} \text{ ones}$
tens	ones					
2	7					

greatest → smallest		

	<table border="1" style="margin: auto;"> <tr> <td style="background-color: #ff00ff; padding: 5px;">tens</td> <td style="background-color: #ffff00; padding: 5px;">ones</td> </tr> <tr> <td style="text-align: center; padding: 5px;">3</td> <td style="text-align: center; padding: 5px;">0</td> </tr> </table>	tens	ones	3	0	$33 = \boxed{3} \text{ tens and } \boxed{3} \text{ ones}$
tens	ones					
3	0					

greatest → smallest		

Now pick three of your own numbers between 20 and 40 to order.

	<table border="1"><tr><td>tens</td><td>ones</td></tr><tr><td></td><td></td></tr></table>	tens	ones			= <table border="1"><tr><td></td></tr></table> tens and <table border="1"><tr><td></td></tr></table> ones		
	tens	ones						

<table border="1"><tr><td></td></tr></table>		<table border="1"><tr><td></td></tr></table>		<table border="1"><tr><td></td></tr></table>	
smallest $\longrightarrow$ greatest					

	<table border="1"><tr><td>tens</td><td>ones</td></tr><tr><td></td><td></td></tr></table>	tens	ones			= <table border="1"><tr><td></td></tr></table> tens and <table border="1"><tr><td></td></tr></table> ones		
	tens	ones						

<table border="1"><tr><td></td></tr></table>		<table border="1"><tr><td></td></tr></table>		<table border="1"><tr><td></td></tr></table>	
greatest $\longrightarrow$ smallest
