

Week 4 - The Indian Ocean

Date: 09/05/22

1. Matching Activity

Flood	An opening in the earth's crust through which lava, volcanic ash, and gases escape
Volcano	An overflow of a large amount of water beyond its normal limits, especially over what is normally dry land
Hurricane	Giant waves caused by earthquakes or volcanic eruptions under the sea
Tsunami	A tropical storm with winds that have reached a constant speed of 74 miles per hour or more

2. Which out of the four natural disasters we have looked at, do you think is the worst? Why?

Tsunami, because it would be really strong and terrible
